# Conditional Use Request

## IMPORTANT INFORMATION

## PLEASE READ

Conditional uses are those uses that, because of their potential adverse impact upon the immediate neighborhood and the Township as a whole, require a greater degree of scrutiny of site characteristics and impacts to determine their suitability in a given location. As such, the determination of conditional uses as appropriate shall be contingent upon their meeting a set of specific standards, below, and the weighing, in each case, of the public need and benefit against the local impact, giving consideration to the proposals of the applicant for mitigating adverse impacts through special site planning, development techniques, and contributions to the provision of public improvements, rights-of-way, and services.

### **The following must be submitted with the application form**

- [ ] Eight (8) paper copies, and (1) electronic pdf copy, of a vicinity map prepared by an engineer, surveyor, or other competent Party showing all lots and streets in the area and within the surrounding one-quarter-mile Radius.
- [ ] Eight (8) paper copies, and (1) electronic pdf copy, of a site plan of the property showing the following:
  - a. Location and size of all existing and proposed structures;
  - b. Location and dimensions of building lines, right-of-way lines, setbacks, and easements;
  - c. Elevation contours sufficient to determine existing and proposed drainage;
  - d. Layout of drives and other traffic features on opposite side of street and adjacent properties;
  - e. Location of septic facilities and sanitary sewer lines;
  - f. Location of parking and loading areas, open space, existing and proposed landscaping, refuse and service areas, and signs.
- [ ] A complete list of all property owners within 300 feet of the exterior limits of the Property, indicating name, address, city, state, and zip code.
- [ ] An application signed by all registered owners of the property or, if application is made by an agent other than an attorney, a written power of attorney or sales agreement must be included.
- [ ] The required application fee and escrow as set forth in the fee schedule, as revised.
- [ ] A narrative statement describing the proposed Conditional Use, including an evaluation of the effects of such elements as noise, glare, odor, fumes, vibration, and generated traffic upon adjoining property, and the relationship of the proposed use to the Comprehensive Plan.

**USE A SEPARATE APPLICATION FOR EACH PROPERTY OWNER IF MORE THAN ONE (1)**

# **If applying for a Conditional Use Cluster Lot Development in an R-1 District the following additional information must be provided.**

## ***SINGLE FAMILY CLUSTER LOT DEVELOPMENT***

Intent: Recognizing that on certain properties unique physical features exist, more specifically steep slopes of 25% or greater, flood plains, and heavily wooded areas and that it would be to the benefit of the health and welfare of the residents to preserve these areas in their natural state, it may be desirable to vary the area and bulk regulations with respect to minimum lot size, lot width, and setback lines, while still presenting the overall density of the R-1 District. Provided that the proposed site contains the unique physical features as stated, it is also recognized that the use of cluster lot development provides an opportunity to encourage more creative development design which may increase the open space benefits and aesthetic appearance of residential subdivisions. In such cases, the Cecil Township Supervisor's may hear a request for a Conditional Use in accordance with the procedure set forth in section 403 of the Unified Development Ordinance.

Plans Submitted for Conditional Use Applications shall be based on a sealed surveyed topographic plan prepared by a registered surveyor; showing the proposed contours and street and lot layout as proposed by a registered landscape architect. These drawings shall show the following:

- Street layout and grades;
- Flood plains and wetlands;
- Steep slopes and heavily wooded areas and/or specimen trees (trees 94" in circumference or larger);
- Proposals for the improvement and/or preservation of open space.
- Lot locations and approximate sizes;
- Total acreage; total number of lots, and total open space acreage with a preliminary phasing plan;
- A list of any proposed modifications from Township land development specifications;
- A narrative as to how the cluster design is of benefit to the Township over standard subdivision design.
- A sketch plan of the same property developed as a standard 1/2 acre subdivision with the required open space and needed modifications from Township land development specifications.
