Fire Protection System Inspection & Reporting Policy

Fire Protection System Inspection, Testing & Maintenance

All fire protection systems in Cecil Township are required by the fire code to be inspected, tested, and maintained on regular intervals. Please see the fire code for schedule **(https://ceciltownship-pa.gov/vertical/sites/%7B3946EAA3-618F-4FF9-A842-AB9D3DC62B58%7D/uploads/2015-ifc.pdf)**. The purpose of these inspections is to ensure the system will operate properly in the event of an incident, ensuring a safe environment by minimizing the risk of life and property loss.

Cecil Township has contracted with BRYCER, LLC to help manage the fire protections systems inspection, testing, and maintenance program. All contractors who perform inspections, testing and maintenance services of fire protection systems are required to electronically submit all compliant and non-compliant reports to the department via www.TheComplianceEngine.com.

Fire Protections Systems electronically tracked by Cecil Township include:

- Active smoke control systems
- Automatic Fire Sprinkler Systems
- Commercial Kitchen Exhaust Hood Cleaning
- Commercial kitchen hood suppression systems
- Deluge System
- Dry Pipe Sprinkler System (Annual / 3year)
- Emergency Exit Lights
- Emergency generators
- Fire Alarm
- Fire Escape
- Fire pumps
- Private fire hydrants
- Smoke Control System
- Special Suppression/clean-agent systems
- Spray booth
- Sprinkler System (Annual / 5year)
- Standpipes

Contractors are required to submit test results to Cecil Township's account on behalf of their customers. Register with The Compliance Engine here.
